About US

Prakriya's founding principle has been to provide holistic education and prepare our children for the new dawn of opportunities. Our resounding ideology has been to give our youth an education that prompts them to be an individual who is liberated, confident and importantly well-grounded. We also expose our students to new world ideas and instill respect in our children for our rich cultural heritage. Prakriya represents education today - modern in approach, global in exposure & intrinsically Indian in values.

Prakriya's KINDERGARTEN

At Prakriya, we follow a customized curriculum that draws inspiration from a number of global teaching techniques with the Cambridge primary program that are age-appropriate and life skill-based. Learning through story-telling, activity, and sensorial stimulation are the key educational methods at the kindergarten level.

Our CAMPUS

Located in the Heart of the City, our Eco Friendly campus is accessible from various parts of the city, making it a safe, friendly and perfect ambience for your child's Education. We also provide Transportation facilities to your doorsteps for an hassle free learning experience.

Co-curricular ACTIVITIES

At Prakriya we encourage bonding (between parent and child) and extended learning (extra-curricular activities) that assist with the development of Body, Mind, and Spirit. Sports, Music, Dance, Theatre, Literature, and Poetry are all a part of the learning opportunities provided at Prakriya. Chess, Robotics and Story telling sessions help keep our students mentally stimulated. Karate, Yoga, Self Defense and Bothmers Gymnastics ensure the students are kept active, healthy and safe. There are also weekly programs on Culture, Indian heritage, and Values. We have guest lectures on critical thinking and career options as well. Our calendar for additional learning programs includes monthly field trips, site visits, life skill programs, and exposure to all that the mind might be inspired by.
